FridgTrackr

Version 9.1

FridgTrackr is an application designed to help users tr[ack]
their fridge. After they go grocery shopping they can e[nter]
bought. After they have they can browse the database o[f]
what they can make with what they have. If the user do[esn't have]
required ingredients the app will inform them, and allo[w]
these items to their grocery list (another database our a[pp]
